*We certify that the violin, illustrated on the opposite side of this document, was made, in our judgement, by Luigi Galimberti in Seveso as indicated by the original label it bears, dated 1925. The maker has signed the label along the lower margin.*

*Description:*

*The back consists of two pieces of handsome maple, cut on the quarter, showing a medium width flame pattern descending from the center joint. The maple ribs and scroll are of similar wood. The belly is of two symmetric pieces of spruce with an annual ring pattern of a narrow width near the center joint that gradually broadens towards the flanks. The varnish is of a rich golden red-orange color laid over a lighter ground coat. This violin is a representative example of the workmanship of Luigi Galimberti for the period.*

*Width U.B.*      16.5 cm.
